Valuation Summary

This report appraises SOLEnterprises.org as a transferable proof asset: a key-gated access gateway, a central command hub (SOLE HUB) that routes users into divisions, a storefront hub, a pricing table with Stripe calls-to-action, unified contact routing, and multiple operator consoles. The appraisal explicitly excludes revenue, pipeline, traffic, and conversion performance.

$124,600

Quality and Scope

Quality Scorecard (Internal Rubric)

Category	Score (0...	Weight	Weighted
Brand & Visual Cohesion	9.2	15%	138.0
Information Architecture & Routing	8.8	20%	176.0
Conversion Readiness	8.6	15%	129.0
Security/Access Posture	8.4	15%	126.0
Operational Tooling	8.7	15%	130.5
Compliance/Trust Surface	7.9	10%	79.0
Maintainability Signals	7.8	10%	78.0
Composite	8.56	100%	85.6/100

Scope

This appraisal values the website as a proof asset (brand hub + shipped systems). It excludes traffic history, rankings, conversion performance, and any revenue-based valuation. External services and API usage costs are not included.

Included

- Public pages and systems sampled as evidence (see Evidence URLs).
- Observed routing, UI flows, and packaging quality as a unified branded suite.
- Visible integration cues (e.g., payment CTAs, key gating, local-first storage patterns) where publicly observable.

Excluded

- Traffic, revenue, close rates, and pipeline performance.
- Private repositories, backend services, or admin systems not publicly visible.
- Licensing valuation for third-party APIs or services (payments, AI providers, auth providers).

Appendix

Measured observations (live scan)

- Secure access gateway with key entry plus account creation flow (boot banner indicates Firebase).
- SOLE HUB command center provides multi-realm routing, briefing modules, and curated internal link map.
- Store hub and pricing table expose multiple Stripe purchase CTAs; Contact Hub provides single intake channel with internal routing.
- Operator consoles (SIGIL) extend beyond marketing into internal tooling surfaces.
